PUBLIC COMMENTS

John Lechner addressed the commission regarding a variety of different topics. A summary of such is summarized below:

- 1) Mr. Lechner wanted to know if his 1900 and 1934 Cannons, that were seized by ATF, were found in the storage building in Kinross. He addressed Chairman Shackleton, indicating that

it was his belief that only he had access to that building and wanted to know if the cannons were found. Chairman Shackleton reminded Mr. Lechner that he can make his comments; however, there is not a discussion during public comments. He went on to say he wanted to know what is in that building and if his cannons are there, he wanted them back.

- 2) Mr. Lechner indicated he received a bill for \$8,000.00 for the Pepler matter. He indicated that he tried to contest the bill; however, the Judge said that it was a good bill. He stated “I’m a long ways from being done with Pepler” and indicated that he is not going to stop, and that, the bill for Pepler, is going to be a lot more than \$8,000.00.
- 3) Mr. Lechner discussed an issue with referencing Commissioner Savoie together with members of the sheriffs’ department which started with his excavator that was taken, and he believes they had no right to take it. He indicated he had a conversation with Mr. Bitnar and later Mr. Bitnar denied the conversation. He went on to say that Mr. Pepler (*former prosecutor*) chose to charge him with five felonies that he held onto until December 12, 2012, three days after he was sentenced to prison for 51 months for having explosives. He discussed charges being nolle prosequi and having to sit in prison for three more years for these lies.
- 4) Mr. Lechner indicated that Bruce Wagner accused him and his son of flying drugs from Cuba to Canada.
- 5) He also spoke of a lady who issues permits and that this lady indicated he never had a permit. He indicated she was lying about this.
- 6) He indicated that Christopher Reeves sent him a letter stating that he had a permit for blasting agents and high explosives and was a responsible person. He went on to say, yet he spent 51 months in prison because of lies. Every time you turn the TV on the news it’s about some politician lying. He went on to say, I’m not going to win, but I’m not going to stop either; I’m going to cost the tax payers so much money they’re going to ask you what’s going on, why are you letting these people lie. He asked the Commission to ask the following questions when paying the bills that are forthcoming or already here.
 - Why are we doing this?
 - Why did we put that man in prison?
 - Why do we have hundreds of thousands of people in prison?
- 7) Mr. Lechner spoke of his conditions in prison.
- 8) He spoke of the Government being stupid. He stated they would put any person in here in prison for telling a lie; but the government, there’s no end to it.

Other statements made:

- The Government lies and they lie because they have a suit on. He goes to school to learn to lie.
- Thank you for allowing me to go over my five minutes and indicated that Ms.

Kennedy is the best person in the county and wished everyone was as honest as her.

NEW BUSINESS

A) **Resolution 17-9 Revise Medicare Prescription Drug Bill of 2003**

It was moved by Commissioner McLean, seconded by Commissioner Martin, to adopt Resolution 17-9 as follows:

**RESOLUTION NO. 17-09
RESOLUTION TO REVISE MEDICARE PRESCRIPTION DRUG BILL OF 2003**

WHEREAS, health care costs continue to rise for all Americans and, for some Americans, this increase can be devastating; and

WHEREAS, Medicare is the focus of many lawmakers who portray it as an “entitlement” program that costs the Treasury too much money. Technically, the term “Entitlement” is correct but it has an unfortunate connotation; and

WHEREAS, Medicare is an essential medical plan that millions of seniors and disabled individuals depend upon to stay alive. Medicare is not a gift, as the term “entitlement” suggests. Many of the beneficiaries have worked their entire adult life and paid into the system in order to receive this crucial medical plan; and

WHEREAS, due to spiraling costs largely associated with the price of prescription medications, our elected officials find themselves passing on increased costs to those who can least afford that increase, namely senior citizens and disabled individuals who are on Medicare’s Part D Drug Program; and

WHEREAS, when congress enacted Medicare Prescription Drug Bill they enacted a law that does not allow Medicare to negotiate with pharmaceutical companies for drug prices the way Medicaid and the Veterans Administration does; and

WHEREAS, one economist, Dean Baker, estimates that Medicare could have saved approximately \$332 billion dollars between 2006 and 2013 (approximately \$50 billion a year) had the Department of Health and Human Services been permitted to negotiate prices of drugs with the drug companies, as federal agencies do in other programs; and

WHEREAS, rising prescription drug costs have been the primary reason for the increase in health benefit costs; and

WHEREAS, the increasing cost of prescription drugs and outrageous profits made by pharmaceutical companies is a systemic problem that significantly affects our state and our nation. It deserves non-partisan effort; and

WHEREAS, we must prevent our elected officials from balancing the budget on the backs of those who can least afford it, the elderly and disabled. Increases in premiums and drug costs are unacceptable ways to deal with a flawed Medicare Prescription Drug Bill; and

WHEREAS, we must preserve the Medicare program as is currently exists and to do so requires immediate action to cut unnecessary costs, particular in the area of prescription drug coverage; and

WHEREAS, we must revise the Medicare Prescription Drug Bill of 2003 to allow negotiating lower drug prices and the importation of identical, cheaper, drugs from Canada and elsewhere; and

WHEREAS, we cannot allow the previously approved bill to stand as adopted at the risk of having the Medicare program be the cause of a staggeringly increasing deficit which will require tax increases or cuts to the rest of the government, nor can we allow the continuance of price increases to our citizens, which may cause many to contemplate discontinuing medically necessary drugs in order to pay their bills, heat their homes and have food on the table.

THEREFORE BE IT RESOLVED that the Chippewa County Board of Commissioners goes on record urging our legislators to immediately commence the process of revising the Medicare Prescription Drug Bill of 2003 to allow negotiating lower drug prices and the importation of identical, cheaper drugs from Canada and elsewhere; and

BE IT FURTHER RESOLVED that a copy of this resolution be forwarded to our area Federal and State Legislators, the National Association of Counties, the Michigan Association of Counties and the other Michigan Counties.

WHEREAS, no one person, organization, agency or community can eliminate sexual assault on their own, but we can work together to educate our entire population about what can be done to prevent sexual assault, support victim/survivors and their significant others, and increase support for agencies providing services to victim/survivors; and

WHEREAS, Sexual Assault Awareness Month provides an excellent opportunity for citizens to learn more about preventing sexual violence, and to hopefully increase the number of conversations our community can have about healthy relationships;
